

PDPM Master Class Series: Effective Meetings for PDPM (UR/Medicare, Clinical, Triple Check)

Series Title: PDPM Master Class (12-month series)

Session Title: Effective Meetings for PDPM (UR/Medicare, Clinical, Triple Check)

Presentation Date: April 2020 Live Webinar

Presented By: (see attached bios)

- Eleisha Wilkes
- Shelly Maffia
- Amie Martin
- Kristen Walden

Course Description:

This session of the PDPM Master Class Series will review how daily clinical, Medicare, and triple-check meeting processes can be updated to ensure ongoing resident-centered assessment and identification of changes under PDPM. Best practices for review of newly admitted residents, incorporating IPA considerations, Interrupted Stay tracking, and assurance of continued skilled need will be emphasized along with ensuring clean claims through an effective pre-submission review process.

Learning Objectives

1. Understand considerations for new admissions, Interrupted Stay and IPA completion and how to incorporate monitoring for optional IPA completion during daily clinical meetings
2. Identify key roles of the IDT in completion of collaborative Medicare and Triple Check meetings to ensure support of skilled need throughout length of stay and release of clean claims

Course Content

20 minutes	Overview of considerations for newly admitted residents, Interrupted Stays and IPA completion and how to incorporate identification of changes in condition and IPA review into daily clinical meeting practices
20 minutes	Review of suggested Medicare meeting frequency, attendees, and content
10 minutes	Example Medicare meeting video
20 minutes	Review of suggested Triple Check meeting frequency, attendees, and content
5 minutes	Closing Comments/Q&A

Target Audience: Administrators, Directors of Nursing, Nursing, QA, MDS, Staff Development, Therapy, Social Services, Board Members

Instructional Level: **Intermediate** **Contact Hours: 1.25**
