

PDPM Master Class Series: PDPM: Advancing Clinical Capabilities and Care Delivery

Series Title: PDPM Master Class (12-month series)

Session Title: PDPM: Advancing Clinical Capabilities and Care Delivery

Presentation Date: October 2020 Live Webinar

Presented By: (see attached bios)

- Eleisha Wilkes
- Shelly Maffia
- Amie Martin
- Kristen Walden

Course Description:

This session of the PDPM Master Class Series will review considerations for advancing clinical capabilities and care delivery under PDPM. Focus of this webinar will be on strengthening or developing care delivery processes by way of evaluating the opportunity for clinical programs, marketing clinical scope, and assuring success through facility policy, QAPI, and Facility Assessment review.

Learning Objectives

1. Identify opportunities for care delivery advancements under PDPM
2. Understand how the Facility Assessment and QAPI processes can aid in determination and monitoring of changes in facility practice related to clinical complexity and care provision
3. Develop marketing techniques to promote physician, hospital, and community involvement

Course Content

30 minutes	Review and evaluate potential areas of opportunity regarding meeting increased medical complexity needs under PDPM
20 minutes	Discuss the Facility Assessment and QAPI in terms of evaluating potential changes in resident population and identifying resources needed to provide necessary care and services
10 minutes	Review marketing strategies to showcase outcomes-based data and promote clinical programs
5 minutes	Closing Comments/Q&A

Target Audience: Administrators, Directors of Nursing, Nursing, QA, MDS, Staff Development, Therapy, Social Services, Board Members

Instructional Level: **Intermediate** **Contact Hours: 1.25**
